

NORTHSTAR INDOOR SAUNA NSI-57

The NSI-57, one of our most popular models, is amazingly roomy, yet only takes up 35 sq. ft. of floor space. With an L-shaped top bench, it comfortably seats four or five people and plenty of room for two to lie down.

The NSI-57 includes a Viki 6.0 kW stainless steel heater with SaunaLogic2 control and mobile app.

COLOR THERAPY

Psychological and Therapeutic Effects of Color

All NorthStar Series Saunas include color therapy lighting systems—discreetly integrated into the backrests. In addition to white light, the LED lighting system can create six different colors (Red, Green, Blue, Yellow, Turquoise and Violet); choose the color according to the mood desired.
